What to expect at Gastech 2024

Gastech 2024, featuring 800 exhibitors and 20 country pavilions from 125 countries, is taking place from 17-20 September in Houston. Gastech is the largest global meeting place for natural gas, LNG, hydrogen, climate technologies & AI, energy manufacturing, and low carbon solutions, bringing together 50,000 global energy professionals over four event days.

Register for your complimentary visitor pass and meet attendees from across the entire energy value chain. Discover the latest industry knowledge, technical expertise, innovations, products, solutions, and services driving energy systems towards a net zero future.

Your visitor pass includes access to the Gastech Exhibition, Gastech Hydrogen, Gastech Climatetech & AI, and Gastech Shipping and Marine.

Upgrade to a delegate pass to gain unlimited access to the Gastech Strategic, Technical, and Commercial Conferences, including the Hydrogen, Climatetech and AI, EPC and Gas Processing, and Shipping and Marine theaters. Plus, discover dedicated feature programs, including Future Leaders, and Diversity, Equity, and Inclusion in Energy, and the Procurement Meeting Place, alongside premium networking opportunities.

50,000
Attendees

800
Exhibitors

20
International country pavilions

Why attend?

Discover new products, solutions, and technologies from 800 international exhibitors spanning global natural gas, LNG, hydrogen, climate technologies and AI, energy manufacturing, and low carbon solutions.

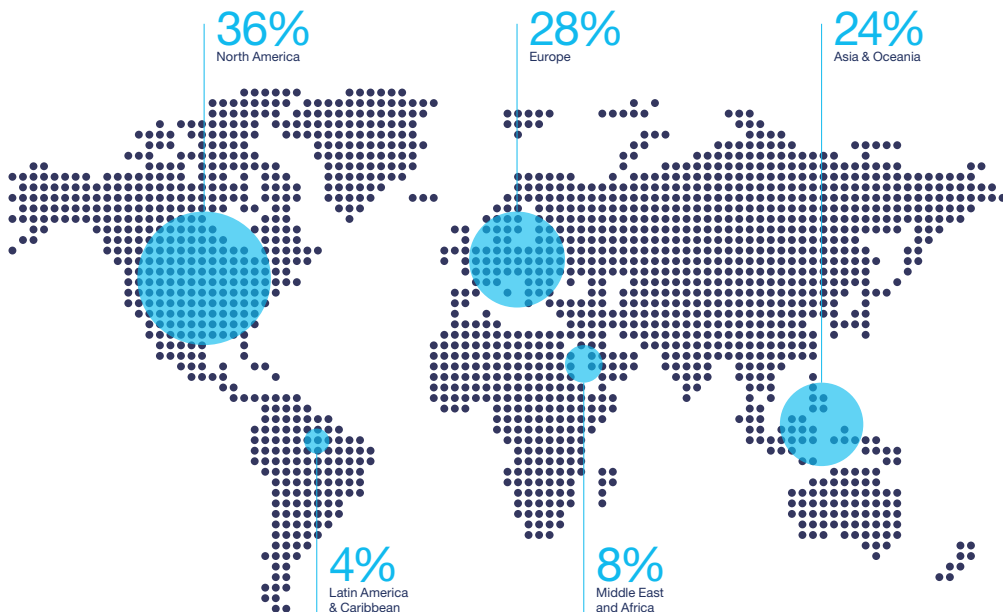

Network with 50,000 energy professionals seeking conversations, collaborations, and connections to address the challenges and opportunities created by energy transformation.

Explore the Gastech Hydrogen, Climatetech and AI, and Shipping and Marine exhibitions, as well as 20 international country pavilions. Experience a world-class business environment, leading the drive towards a cleaner energy future.

A truly global event, Gastech attracts attendees from across the world.

Gastech 2024 at a glance

There are more reasons to attend Gastech than ever before. Your visitor pass will provide access to:

800 international exhibitors

Meet 800 international exhibitors from natural gas, LNG, hydrogen, climate technologies & AI, energy manufacturing, and low carbon solutions. Exhibitors will showcase 1000s of technologies, products, and solutions innovating the future of energy. With 20 international country pavilions, the show floor will have a truly international appeal, supporting an integrated world-class business environment.

Gastech Hydrogen

The Gastech Hydrogen Exhibition and Conference is perfectly poised to drive transformational progress in the energy industry. To transition towards a more sustainable future, the energy industry needs to embrace innovation and invest in hydrogen technology to ensure decarbonized production, drive operational efficiencies and ensure competitive pricing for off-takers. Experts and visionaries will showcase technological breakthroughs, investment opportunities, and collaborative efforts, accelerating the adoption of hydrogen as a green energy solution on a global scale.

Gastech Climatetech & AI

The Gastech Climatetech & AI Exhibition and Conference will support all areas of the climate technologies value chain as it scales up, and becomes an increasingly important part of global energy systems. The Climatetech & AI exhibition will provide a forum to discuss and discover key technologies, innovations and solutions in carbon capture, utilization, and storage, power grid, electrification and digitalization and AI.

Gastech Shipping & Marine

After a historic COP28, significant efforts have recently been made to align and accelerate decarbonization efforts across the energy-maritime value chain to meet these fast-approaching targets. Gastech Shipping and Marine will showcase expertise in ship building, ship to ship transfer, terminal infrastructure and decarbonization technologies, alongside spotlighting how marine services, logistics, and transportation of freight can be achieved in an environmentally responsible way.

20 international country pavilions

With 20 international country pavilions, Gastech serves as a platform to showcase products, services and technologies. It brings together individuals, companies, and countries to explore new markets and build the frameworks they need to forge cross-border partnerships and initiatives that have a tangible impact on the energy transition.

Diversity, Equity & Inclusion in Energy Program

As the energy industry embarks on the journey toward a decarbonized future, diversity, equity, and inclusion (DE&I) are imperative pillars for building the energy workforce of the future needed for success.

The Diversity, Equity, & Inclusion in Energy Program is designed to ignite conversation and foster collaboration around talent. Built upon a long history of leadership and engagement, by dedicating a space for collaboration to inspire tangible actions.

Future Leaders Program

The Gastech Future Leaders Program is a series of seminars exclusive to 200 recent graduates, MBAs and young energy professionals with up to three years' experience working in the energy industry.

The program is aimed at boosting the energy sector's dynamic landscape, enhancing its reputation to attract diverse talent across the entire value chain, whilst driving the industry forward by investing in talent to highlight its positive impact on a global scale.

Networking at Gastech

Gastech Network App

The Gastech Network is the official event app, available to all attendees to navigate their Gastech experience. Features include one-to-one networking and AI matchmaking between exhibitors, speakers, and visitors; exhibitor and products and services listings; speaker profiles, and the ability to personalize the conference agenda.

Coming soon! New and improved for 2024.

Networking Lounge

When pre-arranging onsite meetings via the Gastech Network, attendees are encouraged to conduct them in the Gastech Networking Lounge, located on the exhibition show floor. The lounge offers a private, dedicated space to conduct business and includes ready-to-use services and amenities.

The Procurement Meeting Place

The Procurement Meeting Place will create a focal point for procurement within Gastech. This feature will enable procurement experts to efficiently network, learn, and discover new suppliers whilst also supporting the role smaller enterprises play within the energy value chain and helping SME exhibitors to maximise their return on investment.

Hosted Buyer program

The Gastech Hosted Buyer program acts as a platform to efficiently connect buyers with relevant Gastech exhibitors. This provides an effective and efficient way for procurement professionals to meet with existing and new suppliers.

Gastech 2024 Floorplan

Discover more than 800 exhibitors showcasing products, solutions and technology from across the gas, LNG, hydrogen and climate technologies & AI industries.

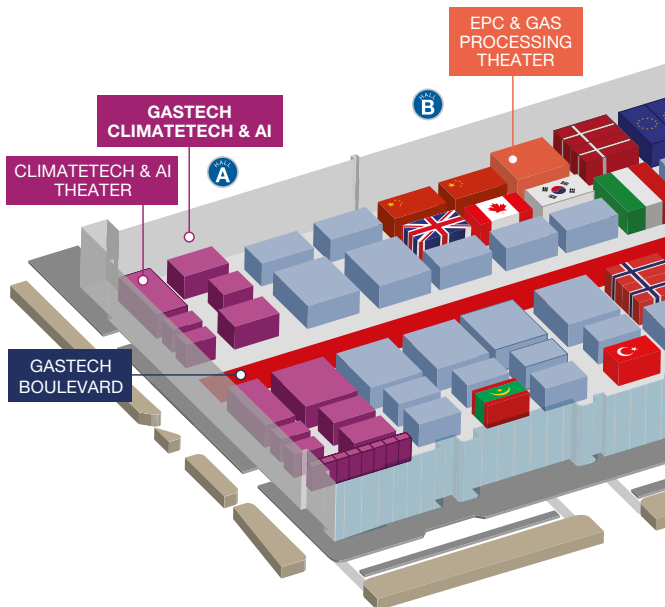

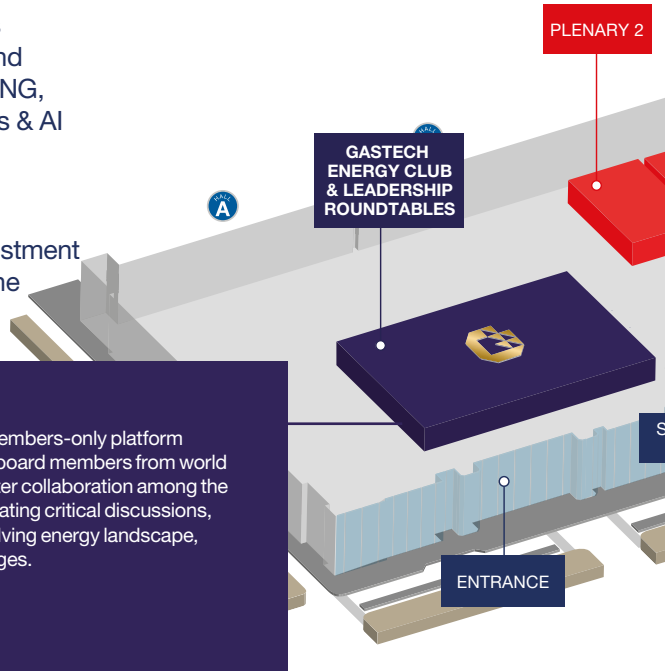

Gastech facilitates the networking opportunities needed and the investment required to enduringly transform the energy landscape together.

Gastech Energy Club

The Gastech Energy Club is a prestigious, members-only platform uniting Ministers, governments, CEOs, and board members from world leading energy companies. Designed to foster collaboration among the industry's most distinguished leaders, facilitating critical discussions, forging connections, and navigating the evolving energy landscape, away from the media for meaningful exchanges.

Upgrade to a delegate pass to access the Strategic Conference

Driving the global energy conversation

The Gastech Strategic Conference is a critical platform for debate and discussion, at what is a crucial time for the natural gas, LNG, climate technologies, AI, and hydrogen industries. The carefully curated agenda will provide a platform to discuss both the challenges we face and the solutions needed to deliver energy security and drive the industry towards a low carbon, decarbonized future.

At Gastech 2024, the energy industry's preeminent thought leaders, including over 1,000 speakers such as global CEOs, Ministers, policymakers, and business leaders, will gather to explore critical issues related to global energy security, policies, investment opportunities, and decarbonization solutions.

Over four days, and across three critical programs, participants will exchange insights on real-world strategies and business models shaping climate actions which will not only deliver transparent emissions reductions and industry-wide decarbonization, but also continue shareholder value.

Join 7,000 delegates and hear from over 1,000 speakers set to answer some of the world's biggest questions on energy security, affordability, accessibility, and sustainability.

The Strategic Conference will focus on the following themes:

60

Sessions

300

Speakers

- 1 | Pioneering an **equitable energy transition**.
- 2 | Championing **natural gas** as an enabler of the energy transitions.
- 3 | Mobilizing **capital** to fast-track a next-generation global energy system.
- 4 | Forging a multi-source energy future through **climate technologies**.
- 5 | **Elevating hydrogen's role** in the global energy mix.
- 6 | Catalyzing partnerships, **policy and regulation** for sustainable impact.
- 7 | Cultivating **talent** for an evolving and disruptive energy landscape.

Gastech Houston will bring together 1,000 speakers, spanning over 160 sessions. A selection of confirmed speakers include:

Mike Wirth
Chairman of the Board & CEO
Chevron Corporation

Wu Junli
Chairman
PetroChina International

Meg O'Neill
CEO & MD
Woodside Energy

Jack Fusco
Director, President & CEO
Cheniere Energy

Secretary John F. Kerry
68th Secretary of State
United States of America

Ryan Lance

TECHNICAL PASS

CONFERENCES ACCESS:

Technical & Commercial Conference

- ✓ Shipping & Marine
- ✓ EPC & Gas Processing
- ✓ Hydrogen
- ✓ Climatetech
- ✓ Commercial

Feature Program

- ✓ Diversity, Equity & Inclusion in Energy Program

Technical Conference Programs

The Technical Conference Programs will be a window to a more sustainable and lower carbon future, displaying cutting-edge technology and research in natural gas, LNG, hydrogen, low carbon solutions, and climate technologies and AI, as well as the tangible impact of an evolving policy landscape.

38

Technical Sessions

250

Technical Speakers

Commercial Conference Program

The Commercial Conference Program program sets out a forum for executives and company leaders to share their practical visions of how the energy industry will deliver on the transition strategies that are redefining the energy industry and beyond.

18

Commercial Sessions

90

Commercial speakers

- Hot Bolting
- Misalignment of Flange
- Modifications
- Machining of New Valve Flange OD/Old valve
- Installation Optimization
